The application has been amended as follows:

- Page 1: Before the first heading, please insert the following: "This application is a 371 national stage entry of PCT/GB00/02944 dated July 31, 2000, which claims priority to United Kingdom application 9917856.8 dated July 29, 1999."

- Cancel claims 53 and 54.

2. Claims 28-52 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Piezo-electric transformers are certainly not new in the prior art. This particular type of transformer has at least been around since **Nicholson** [U.S. 1,863,345].

However, receiving input radiation and generating a received signal that is then used for increasing voltage magnitude of said signal to power electronic circuit means as a result of the supply potential is a new and unobvious use for said transformer. The transformer has been used to determine the filling level of a container as seen in **Pfandler** [U.S. 5,408,168] and also to operate a discharge lamp as seen in **Ganser et**

Art Unit: 2636

al [U.S. 6,111,765], but the use of one to increase voltage magnitude of a received radiation signal such as that found in the applicant's system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
